COMPANY'S PROFILE

BRIEF INTRODUCTION:

We started in the year 1996 with the sole purpose of providing efficient and economical irrigation system design and execution and giving water management products from across world with quality products and after sales service, to ensure optimum usage of available resources.

The Firm is capable to assure prompt design services and execution of works well conversant with modern technology in the field ideal to assert economy, speed and beautification, leed norms to be fit the need and preferences of aspirant customers.

The firm enjoys its vested formulation and planning modalities of optimum economy, workmanship and finishing apt to beautification as well as utilization.

OBJECTIVES:

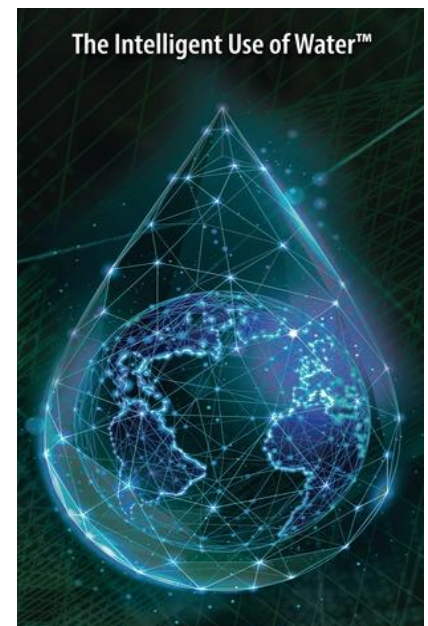

- To ensure efficient usage of Water, Manpower and Machinery towards establishing and maintaining the greens cape of the land using Smart Irrigation technology.
- To ensure maximum value addition to the customers with enhancement.

FOUNDER OF SHIVA GROUP'S:

Mr. SADASIVAM MURUGAIYAN an B.E Agriculture Engineering Graduate from the prestigious TNAU- Coimbatore, he brings with him a Wealth of experience from Irrigation Industry. He has been associated with the industry in TAMILNADU , KARNATAKA & TELANGANA for the past 25 plus years in various capacities.

NATURE OF SERVICES :

- Design, Supply & Installation of Automated / Manual Pop-up turf and Golf Sprinkler Irrigation system for Lawn areas and Sports field.
- Design, Supply & Installation of Drip & Sprinkler Irrigation system for Agriculture, Horticulture & Plantation crops.
- Irrigation System installation & Maintenance Contracts.
- Consultancy for all types of irrigation requirements.
- Supply & Installation of Fountain Systems & Water Features.
- Rainwater Harvesting Techniques.
- Water feature design and execution (Electro- mechanical)
- Swimming pool design and execution (Electro mechanical)
- Using Smart Irrigation technology with Irrigation products.

ASSOCIATION WITH BRANDS:

We have been associated with the best and leading brands of International market. This ensures Quality in products & services, and an efficient & trouble - free system leading to Customer satisfaction through latest Smart Irrigation Technology.

Some of the leading brands we associated with are:

- ❖ **M/s. RAINBIRD INTL INC.-USA (AUTHORISED SOUTH INDIA DISTRIBUTOR)**
- ❖ **M/s. AQVASTAR. - SINGAPORE - SWIMMING POOL PRODUCTS**
- ❖ **M/s. PIMTAS - TURKEY (AUTHORISED SELLER INDIA)**
- ❖ **M/s. ARMAS - TURKEY (AUTHORISED SELLER INDIA)**
- ❖ **M/s. WILO – GERMAN (AUTHORISED DEALER)**
- ❖ **M/s. SUPREME– MUMBAI(ASSOCIATED WITH AUTHORISED DISTRIBUTOR)**
- ❖ **M/s. VARIOS – VALVES, FOUNTAIN NOZZLES & LIGHTS - SINGAPORE**
- ❖ **M/s. ITALFOG – MIST PUMPS - ITALY**
- ❖ **M/s. XERITECH – INDIA**
- ❖ **M/s. KASCO – USA – AERATORS**

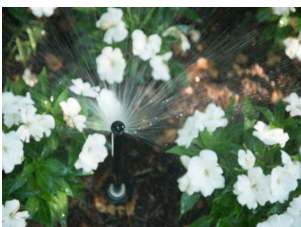

TEAM SETUP:

We have well experienced team setup of General Manager's with strong **Technical , Marketing & Administration knowledge** , Area Managers for **Sales** , Project Engineers for **Project Planning & Execution** , Technicians and 50 Trained Mechanics as Field Staff for project execution, apart from the Administrative Staff, Design Engineers who are well trained in **Design and executing the hi-tech Irrigation Products.**

We have our Registered office @ **Erode – Tamilnadu and its Branches @ Chennai , Bangalore , Hyderabad and Delhi.**

CUSTOMER SERVICE:

We believe in providing prompt response to all customers during or after completion of project. It supports customer for guaranteed period to ensure that the system runs efficiently year after year. The firm also enters into Annual Maintenance Contracts (AMC's) with various companies to provide guaranteed trouble free Operation for the Irrigation system.

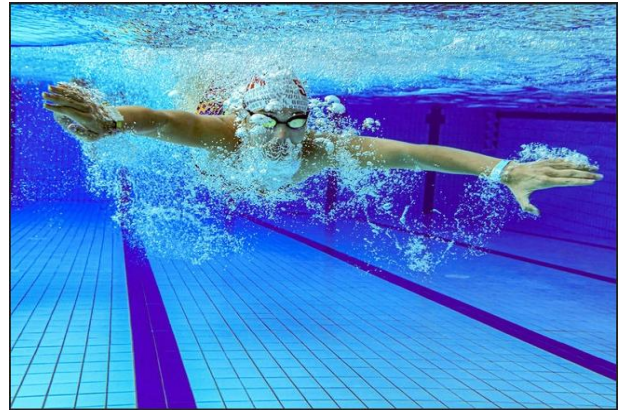

PRODUCTS:

IRRIGATION

SWIMMING POOL

WATER FEATURES

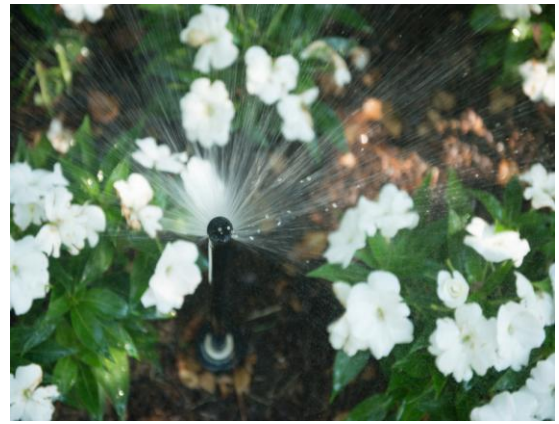

FOG SYSTEM

KOI POND

- Pop-up Rotor Sprinklers & Spray heads.
- Solenoid Valves & Gate / Ball Valves.
- PVC pipes, Filters, Controllers for Automation
- Impact Sprinklers & Rain Gun Sprinklers
- Drippers & Micro Sprayers
- Lawn & Garden products
- Water feature nozzles and underwater lights
- Swimming pool equipment
- Water hammer arrestor
- Control valves

OUR LATEST PRIDE 2022

**KEMPEGOWDA INTERNATIONAL AIRPORT – BENGALURU
– BELLS & VEILS PROJECT**

SMART TECHNOLOGY:

We are capable of prompt execution of work by utilizing Smart technology that ensures satisfied customers and recommend automation, which is a breakthrough in the field of irrigation, for the reasons of economy, simplicity, flexibility and dependability for past years.

The highlight of our company is associated with World-renowned Rain Bird smart Irrigation systems and with other International Brands. KAVERI & SHIVA consists of a well qualified and well trained team in the field of Landscape Irrigation. It has given us an edge in the market in the current years to execute Landscape projects both large and small in size efficiently which meets international standard and also meet demands of completion of work within the mentioned period of time. Another significance is the successful completion of most number of Automated landscape Irrigation Projects in South India for the past years.

GOLF:

Our Mission is simple and that is to provide our Customers with the best service in Golf course. We are capable of prompt execution of work by utilizing smart technology that ensures satisfied customers

Every Golf irrigation product is engineered for Timeless Compatibility, allowing Client to have a state-of-the-art system that can be updated or changed without Clients existing equipment becoming obsolete.

Rain Bird offers constant field monitoring with real-time communication, allowing the system to optimize for maximum efficiency and control. Whether adjusting to unpredictable weather conditions, unexpected course challenges or catastrophic issues, real-time response keeps operating at peak levels.

We at KAVERI & SHIVA are develop Site analysis, System Design and Execution, Equipment Specification & System Quotation, Equipment Procuring, Installation, Customer Service, Quality Assurance and also providing Sales and Services of Landscape Irrigation and Fountain Products.

SMART IRRIGATION TECHNOLOGY

KAVERI & SHIVA systems is an established smart irrigation and fountain company run by a group of potential, experienced Engineers who have catered to the needs of the Agriculturists, Farm house owners, Planters and Industrialists.

HOW KAVERI & SHIVA WORK TOGETHER FOR CLIENTS?

Site analysis, System Design and Execution, Equipment Specification & System Quotation, Equipment Procuring, Installation, and the Customer Service and Quality Assurance and also Sales and Services of Landscape Irrigation and Fountain Product are with latest Smart Irrigation technology.

TECHNICAL DETAILS

Water - the source of life and beauty gives nourishment to the thirsty roots allowing a landscape to thrive and flourish with greenery and colorful flowers. When this water is scarce the plants tend to continuously loose water by transpiration which will result in land parches and wither away plants which ultimately wilt and die. Too much, streams and creeks flow with an angry energy that erodes the land and overwhelms the otherwise delicate landscape.

The Amount of water required by different plants varies drastically. For example, the amount of water required by Xerophytes Plant is less compared to that of a Helophytic plant.

We, KAVERI & SHIVA systems develop ideas that help you to deliver just the right amount of water, where needed and when needed. Our commitment to offer our Clients the highest quality Water Management keeps their lawn, Garden and the other like Landscapes green, healthy and blossoming with Colorful flowers.

The Advantages of using Smart Irrigation Systems are as follows:

- (i) 50% Water is saved which otherwise would go for a waste.
- (ii) Uniform and exact distribution of water.
- (iii) Reduction of labor cost
- (iv) Moreover, it gives attractiveness with elegancy to your landscape.
- (v) Controls erosion of crucial top layer of soil

In a nutshell, we offer customized Smart Irrigation Systems that are environment friendly and cuts operational costs tremendously.

RANGE OF PRODUCTS

We are proud to be associated with the world's number One Irrigation Company executing Smart Irrigation technology. The use of Rain bird products is a feather in our cap. Apart from being a World - renowned Company and pioneering water management in India, Rain bird offers Warranty and can be used for all kinds of water requirements.

LIST OF PRODUCTS

LANDSCAPE IRRIGATION

Drippers - that come in three dimensions varying in their discharge being 2, 4 and 6 LPH respectively. These emitters place one drop of water at a time. They are fully pressures compensating, Self-flushing, and resistant to agricultural chemicals and Ultra violet rays. They are applicable for Trees, Row Crops, Nurseries, Vines, Green houses, etc

Sprinkler - These use a piping system throughout the field.

The sprinklers are mounted on vertical pipes (risers) spaced equal to the radius of water throw.

Pop ups, Rotors, Spray heads, Impacts, etc are used.

MICRO IRRIGATION

Micro sprays and bubbler - installed on a stake under small to medium trees or under vines, one or two per tree or vine. This area of coverage is less than a spinner.

Micro - spinners/ Micro Quick - installed on a stake under medium to large trees, one per tree. The spinner provides greater distance of throw with low flow rates

SMART IRRIGATION SYSTEMS

1. Subsurface irrigation
2. Bubblers, sprays and ROTORS
3. RAINGUN Irrigation
4. Root water system
5. Central control irrigation system
6. Dust suppression systems
7. STP water based irrigation system
8. Moisture and rain sensor based smart irrigation system

WATER FEATURES

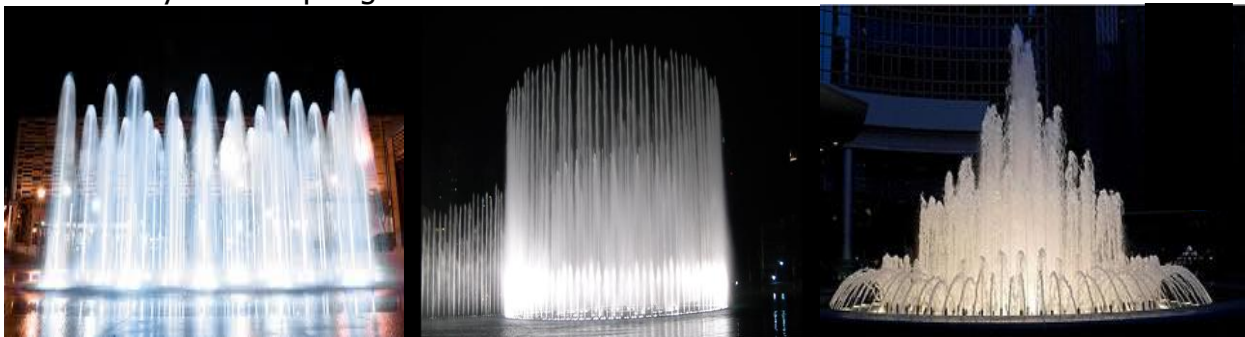

KAVERI & SHIVA is also proud of its association with **VARIOS FOUNTAINS**. We bring to your doorsteps wide variety of fountains, which transforms and adds further glamour to your blossoming landscape, which is a source of beauty to your gardens, industries, Resorts, Farmhouses and various other places. . Kaveri being an expert in this field has the skill and knowledge to recreate natures, water features at your fingertips.

We are specialized in indoor, outdoor and aerating fountain. Aerating fountain unlike our conventional fountain not only adds beauty but also end those multiplying water quality performance, Design, Supply & Execution of the same.

PROBLEM RESOLVER:

- Long hot summer system
- Unsightly algae blooms

- ✓ Top Mounted Filters
- ✓ Side Mounted Filters
- ✓ Residential Pumps
- ✓ Semi Commercial Pumps
- ✓ Commercial Pumps
- ✓ Counter Current System

MIST FOG SYSTEMS

The Misting Fog systems atomize water through high pressure pumps and, particularly in hot days, they create a pleasant sensation of freshness. In addition of high pressure pumps it's necessary to take in consideration **filters, fittings, nozzles, accessories, control device** and all other components to personalize a complete **fog system**. We Design, Supply and Execute projects with Fog Systems.

KOI POND

Our Design , Supply and Consultation Service is used by many architectural landscapers and hundreds of ponds in the country have the influence of Koi pond ideas and designs. We continue to produce ponds and water features of the highest quality that require minimal maintenance.

We design our Koi ponds to be hassle-free for your long-term use. Waste is accumulated over time and is found in three types – floating debris, waste that is mixed in with the water, and sediment waste at the bottom of the Koi pond.

CUSTOMER SERVICE IS NOT A DEPARTMENT; IT'S AN ATTITUDE TOWARDS CUSTOMER TO PROVIDE DELIGHTED SERVICE!!!

We, at KAVERI offer valuable customer Service. We attend all the queries enquired by our valued customer. To enhance customer delight, we have separate team at back office to respond all clarifications enquired by our customers.

The 5 Pillars of a Good Customer Service Team

Channel variety

A proactive support team

Focus on customer satisfaction

Usage of an internal and external knowledge base

Customer Relationship Management (CRM) tools
